Introduction

In your hands you have a comic strip which is a part of the project “Developing an Innovative Tool in Youth Work for Teen Parents”. In this comic book you will find a story of a teen girl who becomes mother. As a teenage parent, she navigates through various challenges, like finishing school while looking after a baby, working on relationship with her daughter and other people in her life and also looking after herself. By reading this story you will see that she is overwhelmed by the responsibility of raising a child at a young age. Even though some moments are really difficult and she struggles a lot but at the end she feels happy about her life.

While reading this comic strip you will be able to get acquainted with teenage girl and various situations, she gets in. You may even be able to identify with her and some or all the situations she faces and feel more confident about yourself and your life choices. We hope that this story will teach you some important things and will be as an example of positive parenting.

This story is just one example of an experience that a teen parent can have. Every person's story is different, and your experience may be completely different. If you have pending questions or queries after reading this comic you can seek further support. In addition to the comic strip in the last chapter of this book, you will find the list of organizations where you can look for help.

Wyższa Szkoła Nauk o Zdrowiu i Biznesu

The Academy of Business and Health Sciences is one of the three biggest schools of non-public higher education in Lodz. Currently in our Academy they are studying over 1000 students. The Academy carries out its unique, modern syllabuses which are, one hand, tailored to the current needs of the labour market, and on the other hand, they are in accordance with the syllabus requirements established by the Ministry of Science and Higher Education. The Academy educates in a practical profile, which means that over 60% of classes are conducted in the form of workshops and projects. Trying to meet the expectations and using the technological possibilities our Academy also offers online studies, aiming at those who want to combine education with professional and family duties. The students of the Academy have an opportunity to do internships and work placements in the countries of the European Union within the Erasmus + programme.

The Center for European Educational Initiatives is an all-university organizational unit established in May 2011, whose aim is to support and stimulate the processes of sustainable development of a modern and open society. CEIE deals with the initiation of partnerships and agreements aimed at social integration, promotion of participation in social and public life of children, youth and adults, especially 50+, and development of volunteering, through the organization of training, workshops, seminars, conferences, debates and other forms of education.

Future in Perspective Limited

Future In Perspective is a private company based in the border region of Ireland specialising in the areas of education and e-learning, media production, strategic planning and business development and evaluation. Through our work on national and EU funded projects, we have engaged and supported local youth groups, migrant communities, older persons, and individuals who have been absent from education to re-engage with service providers and mainstream education and training offerings. We have expertise in supporting businesses in niche markets such as the creative, cultural and green sectors to develop sustainable business models. In addition, we have collaborated with young people and adults to deliver a range of diverse programmes in the areas of media production and career management – supporting the next generation of creative individuals to build and sustain successful careers in the sector. Future In Perspective is a modern business that is structured to reflect the current business reality. It operates in an ecosystem comprising dynamic partnerships and alliances. We have a core staff of 12 highly skilled experts in complementary disciplines that include project management, media production and design, instructional design and e-learning, youth development and research and general administration. Our core team is supplemented by a panel of part-time experts from Ireland and Europe.

SOCOM - The Centre of Expertise on Social Welfare in South-East

The Center of Expertise on Social Welfare in South-East Finland, called also as Socom, is one of the eleven centers of expertise on social welfare in Finland. The Centers of Expertise provide their services in provinces. Socom provides their competence/their know-how in South Karelia and Kymenlaakso.

The central objective of Socom is to establish a working method/model and stable co-operation structure between practical work in the social field, research and education, and municipalities and other service providers. The Centers of Expertise on Social Welfare are open networks based on territorial cooperation needs. The management of the organization is as light as possible. This enables flexible and innovative activities.

WILLINGNESS

Willingness was founded in 2011 with the concept of providing holistic services with regards to Family, Sex and Health. Willingness Team is a multidisciplinary team composed of different professionals with backgrounds in the therapeutic, medical, educational or social fields among others, mainly with a background in psychology. Our mission is bringing professionals and students together to fight the stigma of mental health by encouraging 'the willingness to adapt'. Our vision is a resilient self-aware society, capable to address mental health effectively and adapt to life's adversities more easily. To do this we follow the values of professionalism, approachability, evidence-based practice, and team.

Currently, Willingness offers the following services: individual therapy, couples therapy, family therapy, sex and relationship therapy, integrative counselling, psychological assessments, cognitive behavioural therapy, child psychology, educational psychology, health psychology, counselling for families going through illness, gestalt psychotherapy, career guidance, life coaching and parent coaching and consultations, among others. The Willingness Team also includes Physiotherapy, Nutrition & health coaching, Gynaecological services as well as Genito-urinary Services, and other services related to health. Therapeutic services are also available online through our online clinic.

In addition to clinical services, Willingness offers Childminders by Willingness, psycho-sexual education sessions, and other psycho-educational, practical, and training activities such as

webinars. Meanwhile, we present information at Conferences, Congresses and Educational and Training Events, both locally and internationally.
